Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 13, 14 and 16-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In the definition of substituent A, the phrase "...or a group corresponding thereto which contains a heteroatom..." is unclear. The examiner respectfully suggests deleting the phrase "corresponding thereto."

Claim 13 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. There is insufficient antecedent basis for the limitation "...general formula (3) by the process of claim 1..." in the claim. Claim 1 has been canceled.

Claim 16 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. There is insufficient antecedent basis for the limitation "...general formula (10) by the process of claim 15..." in the claim. Claim 15 has been canceled.

Claim 17 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant

Art Unit: 1621

regards as the invention. It is unclear why a definition for a variable X is defined within the claim text when no such variable appears in formula (12). The examiner respectfully suggests deleting the definition of X.

Claim 18 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. There is insufficient antecedent basis for the limitation "...by the process of claim 1..." in the claim. Claim 1 has been canceled. Additionally, generally formula (4) is incorrect. The oxygen atom should be doubly bonded to the carbon.

Allowable Subject Matter

The subject matter of claims 13, 14 and 16-20 would be allowable once the above rejections have been overcome. The following is a statement of reasons for the indication of allowable subject matter:

The claims, once the limitations of canceled claims 1 and 15 have been appropriately incorporated into the claim text, would be allowable. Canceled claims 1 and 15 correspond to patented claims 1 and 10 allowed for reasons of record in the parent application (now US 6,570,039), therefore claims depending from these claims would be per force also allowable.
